STOCKING LIST

Since 1969, Centurion Stone Products has led the way to secure stability and performance in the precast stone industry. Architects, builders, general contractors and designers nation-wide are confident in the craftsmanship offered by Centurion as a global leader.

The “Close to Nature” appearance of Centurion’s wide variety of products has made it a favorite worldwide for decades. Centurion’s stone has a distinct advantage because it is lighter, cost effective and easier to install than natural stone. Our state of the art facility enables us to manufacture quality products that meet the high standards we set for ourselves and that our customer’s expect. Centurion maintains a timeless goal of making a product that will last for decades regardless of the climate.

DYE LOTS MAY VARY

Due to the manufacturing process, the appearance and color of your stone may vary slightly from the samples on display. Diamond Fireplace & Stone cannot guarantee the colors.

Centurion Stone colors in this brochure may appear to vary due to individual lighting conditions of each photograph. We recommend you examine actual product samples before selecting colors.

Stack

Centurion Stack creates a unique and distinctive appearance for each application. Natural earth tone colors harmonize in a stacked order to form a one of a kind statement. The features of the pattern include chiseled edges, irregular depths, cleft, and aged surfaces. Most representative of the stone fences constructed in the 19th century

Rustic

The character of this coursed blend of Centurion's Stack and Rubble patterns is popular in modern architectural applications and creates a statement of artful distinction.
